Robert and Adolph Haegelin this week received from Iowa a fine Chester White boar. The animal is a son of Rainbow, a widely renowned Chester White male, and cost the sum of \$300.00. He is ten months old and weighs 400 pounds. He made the trip all the way from Iowa to Hondo in this hot weather without any injury despite his great weight. Quite a number of choice females of this breed were brought into this section last spring and it is hoped by those buying them to greatly improve the hog stock of the county.

It's Grandpa and Grandma McGary now. A telegram from their son, Stanton U. McGary and wife of Houston Wednesday morning brought the news that a fine girl had been born to them that morning. At last report the mother and babe were doing fine and Grandpa and Grandma are happy as can be. It is believed confidentially, however, that the report that Grandpa is sitting up nights to practice walking so as to be prepared to do the nocturnal honors in approved style to this new accretion to his family is a gross exaggeration—the baseless fabric of some imaginative brain. But—quien sabe!

Miss Lena Stone and brother, Bine, returned Friday of last week from San Antonio where they had been visiting their brother, Roy, and family. Texas Leading Other States.
Some time ago it was announced
that Texas was leading all the States
in exports; now we learn that it is
ahead of the others in crop produc-
tion; and it will soon be first in
manufacturing. When it turns its
attention to making finished prod-
ucts of what it grows, Texas will be
the richest state of the Union. Tex-
as has been slow to take up manu-
facturing, because quicker returns
have been obtainable from farming
and stock-raising and merchandis-
ing, and because there has not been
sufficient money available for fac-
tories. Now that there is idle money
in all the banks it will be seeking
investment in manufacturing indus-
tries.

T P D
Guardians Of The Public Morals.
Some half dozen Travis county
men are in trouble. They objected
to young couples parking their cars
along the highways because they
suspected that they were engaged in
the naughty practice of "spooning."
The charge against them now in the
courts is that they undertook to
punish several parties parked along
the roads in cars even to the extent
of whipping and beating them. Of-
ficers of the law say that "spooning"
may be naughty, but that it is not
against the law, and that even if it
were unlawful the place for punish-
ment is in the courts and not at
night along the roadsides by self-
assumed enforcers of law. The
first love-making, now dubbed
"spooning" of which there is any
record, was in the Garden of Eden,
and it has been going on ever since.

T P D
Money in Egg Production.
Some citizens at Rising Star, Tex-
as, in January 1924, invested in a
10,000 egg incubator. In eighteen
months the incubator has paid the
stockholders 100 per cent on the
original investment, and the farmers
who are engaged in the chicken and
egg business agree that 100 hens will
pay the grocery bill of an average
family, with a neat sum left over for
other expenses. The farmers around
Rising Star have been keeping books
on their chicken pens and have
found that with eggs selling at av-
erage prices there is a net profit in
the egg business of 20 cents a month
for each hen. What is being done
there can be done almost anywhere,
and the original investment is small.

T P D
Talking About East Texas.
The Texas Press Association has
been in session at Tyler, and the re-
sult is going to be that East Texas
will be getting praise from all the
country papers of the State. Occa-
sionally the papers of one part of
Texas say ugly little things about
other parts of the State, but that is
because Texas is so big that the edi-
tors can not know the good things
about all of it. With the editors
filled with East Texas peaches,
watermelons, berries and fried chick-
en, there will be a satisfactory
knowledge of that part of the State
that will destroy carping criticism
for a time at least.

T P D
Courting Northwest Texas.
The race of the railroads to reach
parts of Northwest Texas not heret-
ofore sufficiently served by the
roads is an indication of the general
prosperity of that part of Texas.
There was a time not long ago when
huge bonuses had to be paid rail-
roads to build into that part of Tex-
as, but now there is much spirited
rivalry as to which shall occupy the
territory. It seems that the auto-
mobiles are not altogether killing
railroad traffic.

T P D
Tomato Growers Getting Rich.
Over around Jacksonville the
tomato growers are getting rich
with the year's tomato crops. Jack-
sonville looks like an oil boom town.
Electric lights are strung along the
streets and tomato sales continue
all through the night. At the height
of the season 140 cars of tomatoes
were shipped in one day and one of
the three banks received \$211,000 in
deposits that day. It was not stated
how much the other two banks re-
ceived. There seem to be money in
other things than cotton in Texas.

T P D
Texas Mountain Resorts Attract.
Kerrville and Alpine and other re-
sort towns in the mountain Section
of Southwest Texas are drawing
larger crowds of Texans this sum-
mer than ever before and all report
that they are delighted with the Tex-
as climate. When once Texas res-
orts prepare to care for the crowds
and let the people know the induc-
ements Texas has to offer for health
and pleasure seekers, we will wonder
why we ever thought it necessary
to go to California or Colorado to
spend a pleasant summer.

T P D
The Rio Grande Valley Country.
The Rio Grande Valley is begin-
ning to rival California and Florida
in growing citrus fruits and vege-
tables. As soon as transportation
facilities are what they should be,
there will be a development in that
section of Texas such as has scarcely
been seen in the United States. It
will be the winter garden and or-
chard of America.

ADVERTISE.

When the dust is on the coun-
ter and the cobwebs on the
shelf,
And there's no one in the
store but your own dis-
heartened self;
And your stock is getting
shelfworn and everything
looking stale,
And bills enough are coming
in to make a banker pale.
Oh, then's time a fellow is a
feeling kind o' blue,
And is puzzled with the proper
thing to do;
In such a situation, but one
remedy applies—
If you want to get the cus-
tomers, you've got to ad-
vertise.

HINTS FOR JUNE BRIDES.

Do not go through his pockets un-
til the honeymoon is over.
Do show an interest in the scenery
—it's free.
Do not be shocked at anything—
let all the shock come his way.
Do be neat in the morning for at
least a week at a time.
Do not uncover your ears till after
the ceremony.
Do tell him how wonderful he is
a dozen times a day.
Do stress the virtues of economy—
it makes the leg-pulling so much
more bearable.
Do not complain at his little gifts
of extravagance—they will end soon
enough.
Do avoid all arguments about the
sex of the first born by naming it
Billy—then you'll both have your
way.
Do not get into the fatal habit of
making breakfast for him and he
won't be expecting it. Train a hus-
band in the way he shall go and he
will not depart from your home.
Do unto him as you would do any-
body else.
Do not let him take you for grant-
ed if you can get him to take you for
a good time.
Do him every thing he asks but—
Don't ask him everything he does.

LACOSTE LEDGERETS

From The LaCoste Ledger.

Another Pearson Wreck.

Shortly after 12:00 o'clock Sunday afternoon, June 21st, five flat-cars loaded with rock and the caboose were derailed at Pearson, only a few hundred yards east from where the head-on collision took place last fall, and the engine pulling the freight is one that figured in said collision last October 3rd, at the same place in which Engineer Puckett and Conductor Johnson were killed.

The wreck was caused by the breaking of an 18 inch flange on one of the wheels and same tore up the track and derailed the other cars.

The track was so badly damaged that three cars had to be rolled over. Traffic over the road was blocked until about 9:00 P. M. Sunday night.

Barn Destroyed by Fire.

A barn belonging to Miss Fannie Mueller and Mr. and Mrs. Paul Koch on the Rabbit Ranch, north of LaCoste was completely destroyed by fire after 9:00 P. M. Wednesday evening, June 24th.

The fire was not seen until the entire barn was encircled by the flames. Besides the barn quite a lot of feed, a practically new binder and wagon and many other smaller items also went up in the flames.

Many of our people rushed to the scene after the alarm was turned in, but the fire had gained too much

QUIHI NOTES.

Sunday school begins tomorrow at 9 o'clock and the regular divine service at 10 o'clock in Bethlehem Lutheran Church. All are cordially invited to both the Sunday school and divine service.

Last Wednesday afternoon the little son of Mr. and Mrs. Edwin E. Schulte was baptized in the Lutheran church, receiving the name of Wilfred Herman. Mr. Alf. B. Balzen of San Antonio and Miss Bertha H. Schulte of New Fountain are respectively the godfather and godmother.

In like manner the infant son of Mr. and Mrs. Otto G. Lindeburg received the sacrament of holy baptism in the Lutheran church last Sunday morning. The little man received the name of Elton Louis, while Mr. and Mrs. Dietrich Lindeburg were sponsors.

Last Tuesday quite a number of public spirited men, young men and ladies, not afraid or ashamed to work, met in the Hy. Boehle grove and cleaned and cleared the place up for the announced 4th of July celebration on Saturday. They surely did do some telling work and as a result the Boehle grove is today as fine a picnic ground as can be found anywhere in Medina County. These people, and Messrs. Alfred Boehle and Rolf Saathoff who superintended the work, deserve much credit for thus providing a place so fine and so fit for out-of-door gatherings.

The Quihi 4th of July celebration is going to be an event of interest and pleasure. The committee which has charge of all the arrangements, under the able leadership of Mr. Alfred Boehle, has made ample provision to interest and entertain both old and young. Plays, games and races for those who like them; finely barbecued meat and bread for all who like and wish such eats; the contents of full baskets for those who bring them; ice cream and cold drinks for all who wish them; fine shade and seats for those who do not wish to stand in the sun.

The literary, musical and oratorical program at the Quihi 4th of July celebration will begin at 2 p. m. In addition to the numbers of the program announced last week, the following numbers will be on the program: Recitations by Florence Grell, Ester and Lucille Bohlen, Ida Balzen, Anna Loessberg and the following potential congressmen, Arnold Loessberg, Roy and Clarence Bohlen, Milton Balzen and Marion Grell and Wesley Reitzer. All are cordially invited to this celebration.

MRS. J. C. WIEMERS DEAD.

Mrs. J. C. Wiemers, nee Antje Fessler, died at her home near Yancey about noon Friday, June 26, 1925. Her remains were buried in the New Fountain cemetery Saturday afternoon.

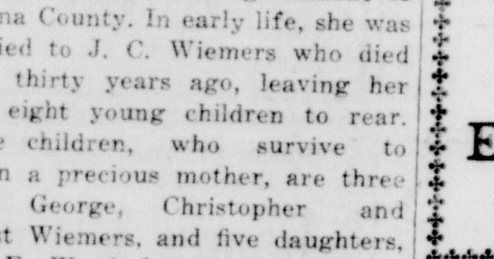

The deceased was 63 years old and had been a life-long resident of Medina County. In early life, she was married to J. C. Wiemers who died some thirty years ago, leaving her with eight young children to rear. These children, who survive to mourn a precious mother, are three sons, George, Christopher and Ernest Wiemers, and five daughters, Mrs. F. W. Oefinger and Misses Emma, Anna, Louisa and Lizetta Wiemers.

Interment was made in the New Fountain cemetery following a touching funeral service at the home and at the grave, conducted by Revs. Radetzky, Foerster and Hardt, all of whom had known and loved this good Christian mother during many of the years of her struggles.

The large concourse of mourning relatives and friends who followed her remains to their last resting place spoke more eloquently than words of the high esteem in which she was held by those who knew and loved her best.

Peace to her ashes.

PHILATHEA CLASS.

The Philathea Class met Tuesday afternoon at the home of Mrs. F. S. Cockrell, with Mrs. Sidney Fly presiding.

As the members gathered Miss Ruth Brown of San Antonio played several lovely piano numbers. After the class song, followed by the Lord's prayer, the roll call was answered by Scripture verses. Mrs. Horger conducted the study of the 7th and 8th chapters of Paul in an able manner. It was voted to meet July 7th at the Church for the study of the 9th and 10th chapters.

At six o'clock the guests repaired to the lawn where Miss Dwyce Cameron and Master Jack Muennink entertained them with clever monologues.

The hostess served an ice and cake course to the following guests and members: Misses Willie Dee Fly, Alice Newton, Bertha Newton; Mesdames D. H. Fly, Walter McClaugherty, Jesse Newton, Sydney Fly, John Horger, Theo. Cameron, Will Connelly, H. L. Jennings of Dallas, Roland Gaines, Frank Schweers, Roland Chancey, Ray Jennings and Ed Cameron.

MAD DOG KILLED.

A vicious dog created quite a bit of excitement down on the W. C. Scott farm Wednesday afternoon by biting a number of other dogs, among them two that Mr. Scott valued very highly, and chasing other animals around considerably.

When he got to chasing one of Mr. Scott's fine milk cows that was the limit and a well directed shot put an end to him.

In order to be safe, Mr. Scott sent the dog's head to the Pasteur Institute Thursday morning for examination to determine whether or not it was afflicted with the rabies.

The animal was a stray in that community, was first seen at the Wiemers place and is thought to have come from Hondo.

People will do well to be on their guard during this hot weather, and people with dogs should see that they are kept on their premises.

1925'S FIRST BALE

To P. S. Ward of Yancey fell the distinction of bringing in Hondo's first 1925 bale of cotton.

The bale came in on Friday, July 3rd. The first bale last year was 24 days later in arriving, coming in on July 27th.

This bale was produced from 1924 stubble and weighed 570 pounds. It was ginned by Mrs. J. W. Holloway's gin and Mr. Ward was given the ginning and a bonus of \$5.00 by the ginner.

The bale was bought by P. R. Richter & Co. for 25c.

By EDNA FERBER

Upon her first view of a field of cabbages, Selina DeJong exclaimed, "How beautiful!"

The remark was long a standing joke, one of the few jokes of the stolid Dutch vegetable gardeners among whom she had come to live.

But it was an insight to the character and perception of this unusual woman, the chief figure in Edna Ferber's remarkable book.

The greatest story from the pen of Edna Ferber, a writer who has been voted unanimously, "the female O. Henry."

TEN YEARS IN THE "HOME TOWN" NEWSPAPERS.

United States Rubber Company Celebrates Tenth Anniversary of a Pioneering Advertising Program.

In 1915 there were 2,445,666 automobiles in this country.

It seemed a tremendous number. Some people were already talking about "the saturation point" being not far ahead.

But if there were some men who couldn't see the woods for the trees, there were others whose faith never faltered.

It took a lot of vision for them to see that the true market for the automobile had hardly been touched.

It took a lot of courage for them to bank on the ultimate success of the automobile in that market.

They had both.

Back in 1915, the United States Rubber Company said "The real future of the automobiles is not in the big cities but away from them."

It is not in short runs on city streets, but in mile after mile on country roads."

So back in 1915 the United States Rubber Company began to prepare for this movement—and to help it.

In 1915—ten years ago—the first U. S. Tire advertising began to appear in the "home town" papers.

Few people saw these papers in their true dimensions.

Few realized the influence they had on what the people thought and did and wore and bought. Because few people realized the place they filled in the minds and lives of their readers.

The United States Rubber Company saw.

As clearly as it saw that the development of the automobile would be in the smaller communities, it saw that the people in these communities would have to have tires to measure up to the service and tire merchants to sell them.

And it saw that in the "home town" newspapers it had, ready to hand, the medium to help it put the merchandising where it would have to be in the new era of the automobile.

So ten years ago people began to read the first U. S. Tire Advertising in their "home town" paper—over the name of their "home town" dealer.

They have been reading it ever since.

They have seen these home dealers develop their little "side line of tires" into real business—always with the support of "U. S." Advertising in these local papers.

Co-incidental with the tenth anniversary of "home town" advertising by the United States Rubber Company, this company announces another long step forward in the perfection of automobile tires—the greatest since the introduction of the cord itself—in its perfect Latex treated—Web Cord Royal Ballon Tire with the flat low pressure tread.

Today there are 16,000,000 automobiles in this country.

80 per cent of them are owned by men and women on the farms and in the smaller communities.

Where there was one U. S. tire dealer in the small towns then there are hundreds today—real merchants.

What was only a vision in 1915 has come true in 1925.

[Read] EASTMAN-TARVER ARE RIGGING UP IN MEDINA COUNTY.

Eastman & Tarver have moved a rig to the Smith & Carson derrick on the Violet Wilson lease in Medina County on the west side of Hondo Creek and one location west of the Smith & Donaldson well of the Ina Oil Company. They are rigging up and will have the well started in a few days. The rig started in Sunday.

The No. 1 Blackburn of Ina Oil Company on the east side of the Hondo creek and northeast of the shallow wells of the Ina company, a distance of about one and a half miles and the same distance east of Hondo creek is drilling at around 1,300 feet. It is said to have gotten a little showing of oil at around 745 feet and if a test of the Edwards Lime fails to get production when that formation is reached the owners of the well may plug back to the 745-foot sand and seek to make the well there.

Medina Oil Company (Lampasas-Bisbee) is reported but not confirmed to be in the contact of the George town and Edwards at about 1,700 feet and have under-reamed and lowered the casing to shut off the water and will resume drilling. They took a core Tuesday night.—Thursday's Express.

MAKES WOOL SALE.

The accumulation of wool in the Bandera County Ranchmen & Farmers' Association, amounting to more than 120,000, will be shipped tomorrow to Boston buyers. The price paid for this wool ranges from 38 cents to 40 cents per pound, a portion of it being sold about three weeks ago before the advance in price.

George A. Hay of Tuft, dropped in to see us Saturday. He was on his way home from Camp Wood, where he attended the auction sale of South African goats last Thursday and Friday. He informed us that the sale was a big success, among Bandera county purchasers of goats being August Mangold and himself, Fred Whisenhunt, Ernest Adams, R. N. Padgett & Sons, and T. H. Phillips. Mr. Hay stated that the highest price paid for one of the South African goats was \$1100, which was given by B. M. Halbert of Sonora. All of the goats, 119 in all, were sold, and averaged around \$325 per head. He informs us that Rocksprings was selected as permanent headquarters of the American Angora Goat Breeders' Association, that town agreeing to furnish a fire-proof office building, with vault, and free electric lights and water, if headquarters were maintained there.
